Memo No. 14092/14892 /D5- 121 Dated 18 -3-2010

SUBJECT: Empanelment of firms for private sale of HT Trivector Static Energy Meters of Accuracy Class 0.5S, to prospective consumers of PSEB.

Following two no. firms are hereby empanelled for private sale of HT Trivector Static Energy Meters of Accuracy Class 0.5S, to prospective consumers of PSEB.

- i) M/s Larson & Tourbro Ltd, Chandigarh.
- ii) M/s Secure Meters Ltd., Chandigarh.

This empanelment shall be valid upto 4-8-2010.

Empanelment of any other firm/firms made in the past for these type of meters shall stand cancelled.

The above empanelled firms shall now sell these HT Trivector Static Energy Meters of Accuracy Class 0.5S, as per latest Specification MG-108 of CE/Metering at a Maximum Retail Price (MRP) of Rs.3243.00 (all inclusive) per meter.

Any firm found/reported overcharging from the consumers than the fixed MRP shall be liable for disconnection.

This issues with the approval of Competent Authority

Part III PUNJAB GOVT. GAZ., SEC. 7, 200 (PART III & 100) PART 1 2009

PUNJAB STATE ELECTRICITY REGULATORY COMMISSION

Notification

The 16th December, 2009

No. PSERC/Secy/Regulation/45.—In exercise of the powers conferred under section 101 of the Electricity Act, 2003 (36 of 2003) and all other powers enabling the Commission in this behalf, the Punjab State Electricity Regulatory Commission hereby makes the following Regulations for harmonising captive power generation.

1. Short title and commencement :

- (a) These Regulations shall be called the "Punjab State Electricity Regulatory Commission (Harmonising of Captive Power Generation) Regulations, 2009".
- (b) These Regulations shall be applicable to all the Captive Power Plants in the State of Punjab.
- (c) These Regulations shall come into force from the date of their publication in the official Gazette of the State of Punjab.

2. Definitions :

- (a) "Act" means the Electricity Act, 2003.
- (b) "Active Power" means the product of voltage and in-phase component of alternating current measured in units of watts and standard multiples thereof.
- (c) "Billing cycle" means a period of one month.
- (d) "Contract Demand" means the maximum demand in KVA sanctioned to a consumer.
- (e) "Captive Power Plant (CPP)" means the power plant that fulfills the criteria laid down in Rule-1 of the Electricity Rules, 2005.
- (f) "Firm Power" means the power supplied on agreed terms and conditions by a CPP owner to a Licensee as per the contract.
- (g) "Infirm Power" means power supplied by a CPP to a Licensee which is not contracted and is not covered under any contract and will also include power from a standby plant.
- (h) "Licensee" means a Distribution Licensee.
- (i) "Merit Order" means order of priority of various generating units under REACT/COGS/COG/IPP's etc. operating in synchronism with Northern Grid System, controlled by the State Load Dispatch Centre (SLDC) in order to schedule and dispatch requirements, generally in ascending order of variable cost of energy.
- (j) "Reactive Power" means the product of voltage and current and the sine of the phase angle between them measured in units of volt ampere reactive and standard multiples thereof.

- (c) "Steady and Startup Power" means the power required by a CFP during pre-coordination or planned forced outages.
- (d) "UI rates" mean the Uninterruptible Supply rates specified by the Central Electricity Regulatory Commission from time to time.
- (e) Words and expressions used in these Regulations and not defined specifically herein will have the same meanings as assigned to them in the Act.

3. Terms and Conditions for operating CFP.

- (1) A CFP may itself use or sell electricity to a Licensee or an Open Access customer in accordance with provisions of Section 9 of the Act.
- (2) A CFP intending to supply electricity to a Licensee will bear the cost of the meters used and interconnecting facilities up to the point of connection with the grid installation of the Licensee. In case the quantity of such electricity is 1 MW or more, the cost of the meter facilities, interconnecting facilities and transmission and distribution of real time data to SLDC will also be borne by the CFP. Specifications of the synchronization and other equipment including technical details of connectivity will be prescribed by the Licensee and the CFP will ensure compliance therewith.
- (3) Charges in the form of one time permission fee will be payable by a CFP seeking connectivity with the grid and operation in synchronization with the grid, at the rates specified in the Tariff Order/Schedule of General Charges.
- (4) A CFP connected in parallel with the grid, will ensure compliance of the State Grid Code and Indian Electricity Grid Code.
- (5) A CFP supplying electricity to a Licensee in excess of 10 MW will furnish its Annual Maintenance Schedule (on April to 31st March) to the SLDC and the Licensee by the 15th of November of the previous year. In the case of a CFP supplying electricity less than 10 MW, its Annual Maintenance Schedule for the succeeding year will be furnished to the Licensee by 15th of March of the current year.
- (6) A CFP will intimate planned outages to the SLDC with details of their commencement, estimated duration and resumption of generation, at least an hour in advance. In the case of an unplanned outage, the CFP will inform the SLDC and the Licensee both of the stoppage of its power plant and resumption of generation within 15 minutes of their occurrence.
- (7) A CFP which is a consumer of the Licensee and an Open Access customer, purchasing electricity from a CFP will be eligible to make such purchases free from all conditions of supply of the Licensee as approved by the Commission.

4. Steady and Startup Power.

- (1) A CFP which is also a consumer of the Licensee will
- ensure that his maximum demand does not exceed the sanctioned Contract Demand;
 - be liable to pay demand surcharge if maximum demand exceeds sanctioned Contract Demand in any month. The surcharge will be as applicable to Large Supply (LS) consumers in such cases.

Part III] PUNJAB GOVT GAZ., DTC. 25, 209 (PUSA 4, 1931 SAICA)

- (2) A CPP which is not a consumer of the Licensee but seeks to avail of Standby and Start-up Power will be governed by the following terms and conditions :-
- Electricity for Standby and Startup will be provided by the Licensee only during start-up the commissioning stage or during planned/forced outages. Such supply will not exceed 15% of the rated capacity of the CPP.
 - The tariff for Standby and Startup Power will be as is applicable to LS (General Industrial) consumers.
 - When the maximum demand of a CPP in a month exceeds the agreed requirements, it will be liable to pay penalty on the excess demand equivalent to demand surcharge as applicable to LS consumers.
 - A CPP seeking Standby and Startup Power will pay @ Rs. 30 per KVA per month commitment charges to be adjusted against the bill for electricity demand.
 - A CPP and the Licensee will sign an agreement for meeting the requirements of Standby and Startup Power incorporating the above terms and conditions.

3. Sale of surplus Firm Power to a Licensee :

(1) Contract for sale of Firm Power :

A CPP seeking to sell power to a Licensee will enter into a contract with the Licensee on mutually agreed terms and conditions for sale of Firm Power.

(2) Billing :

(a) Metering :

Metering point will be on the high voltage side of the step-up transformer in the CPP premises. Meters, metering procedures, type of meter and its testing etc. will be as per the State Grid Code notified by the Commission.

(b) Payment :

Based on the energy account prepared by the SLDC, a CPP will raise bills at the end of each billing cycle for electricity actually consumed after accounting the energy demand of own, from the Licensee. Other charges such as meter rentals, commitment charges, Open Access charges payable to the Licensee, etc. will also be taken into account while preparing the bills. Payment of such bills will be effected by a Licensee in the same period as is applicable to LS consumers of the Licensee. The Licensee will be liable to pay surcharge in case of delayed payments of the bills as applicable to LS consumers.

2130

PUNJAB GOVT GAZ., DEC. 25, 2005 (PART 4, 1901 SAKA)

(PART 3)

(3) Reactive Power Injection :

The CFP will export reactive power which will not be less than 62% of the active energy to be supplied to the grid. Any shortfall in the injection of reactive energy will be charged as per rates approved by CTDC.

(4) Purchase of Power :

Power from a CFP will be purchased as and when it is generated and the merit order will not be applicable in such a case.

(5) SLDC Fee and Charges :

A CFP will pay SLDC fee and charges as may be specified by the Commission.

(6) Monthly Minimum Charges (MMC) :

(a) A CFP which is a consumer of a Licensee will be liable to pay MMC as per the relevant Schedule of Tariff.

(b) A CFP to which the Conditions of Supply of a Licensee are applicable will be entitled to avail of the benefit of deemed sale when :

- (i) the difference between actual net generation (after deducting auxiliary consumption and power injected into the grid, if any) and power drawn from the Licensee during any billing period exceeds the energy equivalent of MMC; and
- (ii) drawal of electricity from the grid of the Licensee is less than the energy equivalent of MMC.

Entitlement to deemed sale will be the difference between the energy equivalent of MMC and the electricity drawn from the grid of the Licensee.

6. Sale to a Third Party :

A CFP may sell electricity to a third party which is a consumer of the Licensee subject to compliance with the Open Access Regulation notified by the Commission. The State Transmission Utility and the Licensee will facilitate such third party sale.

7. Tariff :**(1) Sale of Firm Power :**

Tariff for sale of power from a CFP to a Licensee will be equivalent to tariff rates applicable to LS (General Category) consumers. These rates will be applicable when power is supplied for a period of up to five years.

For a period beyond five years, power will be purchased through competitive bidding process.

(2) Sale of Infirm Power :

Infirm Power will be paid for by the Licensee at 10 rates notified by the Central Electricity Regulatory Commission.

Part (III)

PUNJAB GOVT GAZ. PART III, 2008 (PART III) 4, 10311 SAKA)

213

8. Banking of Energy :**(1) For NRSE based CPPs :**

Banking of Energy will be permitted as per the NRSE policy, 2006 notified by the Govt. of Punjab.

(2) For Other CPPs :

The facility of banking will be provided free of cost by a Licensee. However, the banked energy will be permitted to be drawn subject to the condition that

- It will be drawn within one year from the date of banking being which the Licensee will effect payment therefor to the CPP in accordance with Reg. 3(2) above.
- It will be not be drawn during the peak load hours.

Energy accounts of all banking transactions shall be maintained by the SLDC.

9. Power to remove difficulties :

If any difficulty arises in giving effect to any of the provisions of these Regulations, the Commission may do so undertake things or by a general or special order, direct a Licensee or CPP to take suitable action not being inconsistent with the Act, which appears to the Commission to be necessary or expedient for the purpose of removing difficulties.

10. Power to amend :

The Commission may, at any time, add or amend any of the provisions of these Regulations.

By Order of the Commission.

(Sd) . . .

(NAMITA SIKHON)

Secretary to the Commission.

Memo No. 16464/17264
 Dated: 9/4/10

Sub: Continuation of tariff as revised by the commission vide its order 29.3.2010 after 31.3.2010 till the time ARR/Tariff for 2010-11 is determined by the commission.

In compliance to Punjab State Electricity Regulatory Commission (PSERC) order dated 29.3.2010 with reference to Petition No. 25 of 2009 relating to subject cited above, PSERC has allowed PSEB to charge existing tariff (circulated vide CC 29/2009 dt. 9.09.2009) from all categories of consumers with effect from 1.4.2010 till the date of issue of tariff order for the year 2010-11 subject to the condition that Govt. of Punjab continues to pay subsidy to the Board in respect of categories already being subsidized.

PUNJAB STATE ELECTRICITY REGULATORY COMMISSION

Notification

The Punjab State Electricity Regulatory Commission

No. PSERC/Supp-Regn-07.—In exercise of the powers conferred under Section 146 of the Electricity Act, 2003 and all other powers enabling the Commission in that behalf, the Punjab State Electricity Regulatory Commission hereby makes the following Regulations to amend the Punjab State Electricity Regulatory Commission (Single Point Supply to Co-operative Group Housing Societies Employees) Regulations, 2008 (referred to as "Notification No. PSERC/Supp-Regn-07, dated 13th May, 2008"), namely:—

1. These Regulations may be called the Punjab State Electricity Regulatory Commission (Single Point Supply to Co-operative Group Housing Societies Employees) (Amendment) Regulations, 2008.
2. These Regulations shall come into force on the date of their publication in the official gazette of the State.
3. In Regulation 4 of the main Regulations, for clause "4" (b) the following shall be substituted, namely:

Reg. 4 Terms and Conditions for Supply at a Single Point under Regulation 3:

- 4 (b) The Housing Society Employee will be charged monthly maximum charges on the basis of Contract Demand (as notified for each Housing Society Employee). The rate of monthly maximum charges will be as specified in the Tariff Order for the relevant year.

By Order of the Commission,

(34)

NAMITA SETHI,

Secretary to the Commission
