Memo No. 23969/73 /DD/SR-30

Dated: 15.09.2011

Sub: Amendment in clause no. 47 of Conditions of Supply.

Hon'ble PSERC vide its order dt. 07.09.2011 has decided to amend Conditions of Supply w.e.f. 15th September 2011 and substitute clause 47 regarding PROVISION OF 11KV INDEPENDENT FEEDER FOR CONSUMERS with the new clause as below: -

47. PROVISION OF 11KV INDEPENDENT FEEDER FOR CONSUMERS.

- 47.1 Consumers running Essential Services and/or continuous process industries irrespective of their load/contract demand or other Industrial consumers with a Contract Demand exceeding 2500 KVA may apply for an independent 11 KV feeder to avail of the benefit of uninterrupted supply of electricity provided they agree to pay the cost of the independent feeder, Circuit Breaker (CB) and establishment charges.
- 47.2 When a consumer obtaining supply from an existing common feeder is allowed an independent feeder, the cost incurred in converting the existing feeder into an independent feeder including the cost of shifting the supply system of other consumers connected to the existing feeder will be payable by that consumer. A consumer requiring supply from an independent feeder who has initially paid only prorata cost of switchgear as per Reg. 9 of the Supply Code will be further liable to pay remaining cost of Circuit Breaker after adjusting the prorata cost already paid.
- 47.3 The independent feeder provided at the cost of a consumer will not be tapped/extended to provide supply to any other dis-similar consumer. However, if such tapping has to be resorted to on account of technical constraints, then it will be effected in such a way that an independent feeder of essential service consumer is tapped/ extended for another essential service consumer only. Similarly an independent feeder of a continuous process industrial consumer shall be tapped/extended for another continuous process industrial consumer only. An independent feeder of a general industrial consumer shall be tapped/extended for a general industrial consumer only.
- 47.4 In the event of tapping/extending an independent feeder, the consumer getting the benefit of independent feeder by tapping/extending shall be liable to pay proportionate cost (duly updated by applying Wholesale Price Index for all commodities) of common portion of line/feeder including Circuit Breaker at the sending end in addition to entire cost of independent portion/section.

- 47.5 The proportionate cost of common portion of feeder/line recoverable from 2nd and/or subsequent consumer alongwith interest at SBI's base rate (compounded annually) on this proportionate cost shall be adjustable against the expenditure incurred for augmentation of feeder which might be necessitated in the event of the consumer(s) who has borne the entire cost initially coming up for enhancement in his Contract Demand.

It shall be ensured that the original consumer is intimated regarding congestion in and around the substation and the proposal of tapping his independent feeder. The cost of common portion payable by 2nd and or subsequent consumer shall also be intimated to the concerned consumer. It shall also be ensured that where double circuit supports are provided for erecting a single circuit independent feeder the concerned consumer is charged the cost of single circuit supports only.

Wide publicity shall be given by pasting this circular on the notice board of the field offices.
