

User Manual (SOP) for Accessing Oracle EBS ERP on Laptop/Desktop

Customer:Punjab State Power Corporation LimitedProject Name:Oracle ERP Implementation

Objective:

Purpose of this document is to describe the steps to access the Oracle ERP, so that end user can easily access the application. This document covers here the following information:

- 1. Hardware and Software specification.
- 2. Download/Install Java JRE and Firefox
- 3. Accessing of Oracle ERP and Settings
- 4. Accessing Oracle OBI application.

Hardware/Software Specifications:

These Specification are recommended for running the Oracle ERP APPS. Computer Hardware recommendation:

4 GB of RAM and 1.5 GHz or higher processor

Minimum Browser Requirements

Microsoft Internet Explorer version 11 or Mozilla Firefox 49.0

Windows Desktop Operating System

Windows 10 (32-bit and 64-bit) Windows 8.1 (32-bit and 64-bit) Windows 7 (32-bit and 64-bit)

Java SE Runtime Environment (JRE)

Java jre-8u341

Download and Install Java & Mozilla Firefox Browser

01. Download Java and Mozilla Firefox Browser from below GDRIVE link:

https://drive.google.com/drive/u/2/folders/1DFJF3n16i-fUhf4wXatW2ZvlhmlHDZ_N

- 02. Install both software after downloading.
- 03. After installation of Java and Firefox, copy application URL (https://erpappssit.pspcl.in)

then navigate to control panel>Java>Security>Edit Site List>Add then paste the URL and click OK.

Screenshots of the Steps to add URL in Java Security:

Step-1. Copy this URL: https://erpappssit.pspcl.in

Step-2. Go to control panel and click "Java"
