

PUNJAB STATE POWER CORPORATION LIMITED

GOLDEN OPPORTUNITY TO EARN LUCRATIVE RETURNS BY ADVANCE PAYMENT

In the recent days, the banks have reduced the interest rates on Fixed Deposits (about 6% p.a.) as well as on Savings Accounts (about 3.5% p.a.). It may be appreciated that PSPCL remains in the service of its esteemed consumers 24x7 even under extreme conditions; days of summer, nights of winter, rains and ongoing curfew/lockdown. Further, in order to help the consumers earn a better rate of return, PSPCL offers its consumers of all categories to make advance payment towards their estimated electricity bills upto March 2021 to the extent they can through digital modes at <https://billpayment.pspcl.in> and earn interest @ 1% per month on advance payment as per clause 31.8 of Supply Code 2014 (view at above PSPCL website link). Thus, consumers will earn interest almost @ 12% p.a. (double the rate of interest on fixed deposit).

PSPCL appeals all categories of consumers to make optimal use of this attractive offer.
